PROFILE

Product Designer based in Valencia with independent UX/UI practice in France and Spain, informed by 8+ years in multilingual service operations. I structure workflows, interaction states and handovers, then use Figma and React prototypes to make product decisions inspectable.

SELECTED PRODUCT WORK

Relay · Independent research prototype · 2026

- Modelled a decision workspace for cross-border ecommerce exceptions using public platform, carrier and EU documentation. Designed queue, ownership, permission and audit states and built an inspectable React prototype with synthetic records.
- Research boundary: operator interviews and usability sessions are planned. No client deployment or business impact is claimed. Case: brenosampaio.vercel.app/work/relay

DESIGN EXPERIENCE

Independent Product Designer · Valencia, Spain · Jan 2024–Present

- Translate business and user needs into requirements, flows, information architecture and interface states; map operational edge cases and communicate design decisions through wireframes and functional prototypes.

Freelance UX/UI Designer · France · Nov 2020–Feb 2023

- Delivered UX/UI work for independent clients and conceptual products, from requirements and journey mapping to Figma wireframes, high-fidelity interfaces and interactive prototypes.

OPERATIONS EXPERIENCE

Multilingual front-office and service operations · France & Spain · 2017–2026

- Moontels (2024–2026), Travelodge (2023–2024) and ibis/ibis Styles/ibis budget (2017–2020). Investigated reservation and service discrepancies across ICNEA, Salesforce and hotel systems; coordinated case ownership, corrective actions and shift handovers.

TOOLS & PRACTICE

Product: problem framing, requirements, user journeys, information architecture, interaction states, wireframes, Figma prototypes and acceptance criteria.

Frontend: HTML, CSS, JavaScript, React/Next.js prototypes and Git. Research: public-source desk research, explicit assumptions and accessibility review.

EDUCATION & LANGUAGES

Web Design & Digital Interface — Escola SAGA, Brazil (2010–2013) · Google UX Design Certificate.

Portuguese native · French C1 · English B2 · Spanish B2 · Italian B1.
